

YOUR NEXT STEPS WHILE WAITING FOR YOUR COVID-19 TEST RESULTS

You must isolate/quarantine until you receive your test results

HOME QUARANTINE

If you are asymptomatic and have had a close contact:

- Stay home from work and/or school
- Separate yourself from others as much as you can
- Do not allow visitors at your home
- Monitor your health, watch for fever, shortness of breath, and cough

These quarantine recommendations apply to those who are not fully vaccinated

The best practice is to quarantine for 14 days!

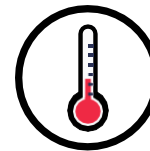

If you do not have any symptoms, get tested day 6 or later, and the result is negative, you may end quarantine on day 8 after exposure.

HOME ISOLATION

When you have symptoms or test positive

- Stay home except to get medical care
- Monitor your symptoms. If you have an emergency warning sign (such as trouble breathing), seek emergency medical treatment
- Stay in a separate room from other members of your household, if possible
- Use a separate bathroom, if possible
- Avoid contact with other members of your household and pets
- Do not share personal items such as cups, towels, and utensils
- Wear a mask if you are around other people

WHEN IS YOUR ISOLATION OVER?

You have been **fever-free for at least 24 hours** without using medicine that reduces fever

AND

Your other **symptoms have improved** for at least 24 hours

AND

At least 10 days have passed since you had symptoms

DHS WI recommends that fully vaccinated individuals who have a known exposure to someone with suspected or confirmed COVID-19 be tested 3-5 days after exposure, and wear a mask in public indoor settings for 14 days or until they receive a negative test result.

NEXT STEPS AFTER TESTING POSITIVE FOR COVID-19

NOTIFY YOUR CONTACTS

- Notify the following that you have tested positive:
 - Place of employment
 - School or daycare
- Notify those who you have had close contact within the last 2 days prior to your onset of symptoms.
 - If you do not have symptoms, notify close contacts 2 days before your positive test.
- Remind your contacts to quarantine and encourage them to get tested on or after day 6

HOW WILL YOU BE CONTACTED FROM THE COUNTY IF YOU TEST POSITIVE?

- Waukesha County residents will be contacted through the following:
 - Those 17 and younger and those 70+ will be contacted via phone by the Waukesha County Public Health Division
 - Those 18-69 will receive a text message from the number "48355". **This is not a scam, please complete the survey using the provided link.**
- Those who reside outside of Waukesha County will be contacted by their local health departments

GETTING YOUR TEST RESULTS

Tests from Village
Primary Care
Providers and
Summit Clinical
Labs at New Berlin
and Delafield
should receive
Same-Day results.

Call the number below if you do not receive results between 9pm-12am on your date of testing.

LAB: 262-788-9311
